## SUMMARY

---

### Dedicated **Full Stack Developer | PHP & Laravel**

Results-driven Software Engineer with a strong foundation in PHP, Laravel, and modern web development practices. Passionate about designing and implementing scalable, user-friendly web applications that drive business growth and enhance user experience. Adept at problem-solving and delivering innovative solutions in dynamic and fast-paced environments.

Seeking opportunities to apply my expertise in creating impactful projects while fostering continuous personal and professional growth.

## WORK EXPERIENCE

---

### Software Engineer, [Dream Diver](#), Netherlands (Dhaka Office)

June 2023 - Present

- Collaborated with national and international clients to gather requirements, manage deployments, and ensure project success.
- Successfully implemented user interfaces and backend functionalities for diverse web projects using Laravel.
- Continuously improved coding skills by attending advanced training, mentoring juniors, and exploring best practices in PHP and Laravel.
- Focused on delivering scalable, efficient, and user-centric solutions to meet business goals.

### BASIS Institute of Technology & Management (BITM)

PHP & Laravel Course | 3 Months-2023

- Gained foundational knowledge in PHP and Laravel development.
- Worked on both frontend and backend functionalities, covering basic web development tasks.
- Developed hands-on experience in designing dynamic web applications using Laravel.
- Learned to integrate core PHP functionalities with database management and user interface design.
- Focused on building real-world projects to strengthen skills in full-stack web development.
- [Certificate](#).

## SKILLS

---

- **Frontend Expertise:** Skilled in HTML, CSS, JavaScript, and frameworks like Bootstrap to create responsive and visually appealing designs.
- **Backend Proficiency:** Advanced knowledge of Laravel, API development, and database management with MySQL.
- **Version Control:** Expertise in Git for collaborative and efficient development workflows.
- **Cloud Hosting:** Hands-on experience with **cPanel**, **Hostinger**, **HostGator**, **Netlify**, and **Firefox** for deploying and managing web applications.
- **Database Optimization:** Skilled in designing and optimizing relational databases for performance and scalability.
- **Problem Solving:** Strong ability to debug, troubleshoot, and improve code quality efficiently.
- **Communication & Collaboration:** Adept at working in team environments and communicating effectively with clients and stakeholders.

# PROFESSIONAL PROJECTS

---

## E-Commerce Platform Development

- **Role:** Full Stack Developer
- **Overview:** Designed an online store with a smooth user experience for shopping.
- **Key Features:** Product catalog, cart, checkout, and admin panel for managing inventory.
- **Technologies:** Laravel, MySQL, Bootstrap.

## Restaurant Management System

- **Role:** Full Stack Developer
- **Overview:** Developed a system for managing restaurant operations.
- **Key Features:** Online menu, order management, reservation system, and billing.
- **Technologies:** Laravel, MySQL, Blade Templates.

## Multi-Vendor Marketplace

- **Role:** Full Stack Developer
- **Overview:** Developed a platform for multiple vendors to sell products.
- **Key Features:** Vendor dashboard, product listing, order management, payment gateway.
- **Technologies:** Laravel, MySQL, Stripe API.

## Hospital Management System

- **Role:** Backend Developer
- **Overview:** System for managing patient records and appointments.
- **Tech:** Laravel, MySQL.

## Inventory Management System

- **Role:** Backend Developer
- **Overview:** Developed a system to manage stock levels and purchase orders.
- **Key Features:** Real-time inventory tracking and low-stock alerts.
- **Technologies:** Laravel, MySQL, REST API.
